Post Class Song Practice New Habana

PRACTICE INSTRUCTIONS

Practice playing “New Habana” on your guitar. Read the positions of the notes in the New Habana Guitar Tablature, and find these note positions on your guitar, just like how you did in your lesson. Try to play your guitar just like the guitar you hear in the following video [New Habana](#)

REMEMBER: submit a recording of yourself playing this tune on your guitar on the song practice panel to get points.

To practice playing Low Riff like we did in the class, click here (Objective is to play the correct open strings on the correct beats) [Low Riff](#)

Finding it difficult to play New Habana? Take it easy and try The Habana Song. (Objective is to read the tablature and play clear notes on the guitar) [The Habana Song](#)

Remember to practice 15 minutes EVERYDAY!!
